About Our Skateboards

All our boards are 100% slow growth maple. While most all skateboards are now made in China or Mexico from quick growth maple, our concaves are still made in Wisconsin of 70 year-old Maple. This wood has the tightest grain and most strength of any other flexible wood.

Santa Cruz Boards are minimum order of 5 boards (Mix/Match Powerply/Old School).

Please note there is a ½" safe zone around edges of the concave blanks to allow for ply alignment during pressing.
